

Upgrade to a Tankless Lifestyle

Noritz ValueSolutions models are designed to make it easy to upgrade from an old-school tank to the tankless lifestyle.

Ask yourself this question: *how old is your water heater?* Just think about the process of heating and reheating a big tank of water, and you realize just how wasteful water heating can be. Noritz tankless water heaters **only heat water when you need it**. And you won't be using water that has been stored in a scaled-up, rusty tank.

Noritz ValueSolutions is the **easy and affordable** way to upgrade your lifestyle to continuous hot water when you need it. Every model is a high performance, compact package that uses energy wisely and features digital temperature control.

Noritz tankless water heaters are engineered to last and are backed with a **12-year limited warranty**.

The bottom line? There are many benefits of going from tank to tankless:

- * **ENDLESS HOT WATER**
- * **SPACE SAVINGS**
- * **ENERGY SAVINGS**
- * **ENVIRONMENTALLY FRIENDLY**
- * **ENGINEERED TO LAST**
