

ENERGY STAR Appliance Rebate Program

This list was compiled on 6/14/2010.

Noritz America cannot be held responsible for the listed rebates that may no longer be available. The rebate amounts and percentages vary by state/territory. These programs will only last until the budgeted money is used up.

All the information is based on each state's program plan as of the date approved by the U.S. Department of Energy. Many program details will remain fluid until the program's start date and are thus subject to change.

Although State Energy Efficient Appliance Rebate Program rebates are closed in the States or Territories listed above, other ENERGY STAR partners occasionally sponsor special offers, such as sales tax exemptions, tax credits, or rebates on qualified products, which may be available in your area. Additional incentives can be found at the Database of State Incentives for Renewables and Efficiency.

State	Estimated Start Date	Rebate Amount	Program Requires Rebate Reservation	Is Haul-Away Required?	Is Recycling Required	Extra Rebate for Recycling	Notes
Arizona	Mar-2010	\$300	n/a	n/a	n/a	n/a	PROGRAM HAS EXPIRED IN ARIZONA. All funds have been exhausted.
