

REVISIONS

REV.	DESCRIPTION	DATE	APPRVD.

Notes:

1. System Controller can be used to connect a 2 or more unit multisystem application. When System Controller is in use, pump control and tub alarm features are disabled. Refer to SC-201-6M manual for detailed instructions in setting up system controller.
2. When using System Controller, use only a single remote controller.
3. Size the piping to allow for the maximum flow rates of the units.
4. Noritz recommends the use of Isolation Kit (IK-WV-5) with installation. These kits include an integrated shut-off and service valve with unions and a pressure relief valve.
5. Size the pump to provide enough flow through the water heater and Brazed Plate Heat Exchanger. Refer to the manufacturer for flow requirements and performance data.
6. Expansion tank required if a backflow preventer is installed.
7. Check valve required if it is not included with the pump.

MODEL:
 N-0931M

APPLICATION:
 2-6 Unit Multi-System
 Domestic Hot Water
 Radiant Heating

DRAWING NUMBER:
 (7a2-6)N931M

DRAWING DATE:
 September 22, 2008

- Noritz Accessories**
- RC-7649M (Remote Controller)
 - RC-CORD10 (10' Remote Controller Cord, optional in 26')
 - VC-4-1 (Outdoor Vent Cap, place on top of unit)
 - SC-201-6M (System Controller, for 2 or more unit Multi-System)

Note: This diagram is for reference only. Installation must comply with State and Local Code, all gas and water pipe must be sized correctly to specific length, according to accepted engineering methods or the UPC Code for Noritz Water Heaters to operate correctly.

- Shut-off Ball Valve
- Check Valve
- Union
- Pressure Relief Valve (Watts 174A, Zurn P3000BR, Cash Acme F-82)
- Aquastat (Honeywell Model #L6006A or L6006C)
- Pump
- Mixing valve
- Thermal Expansion Tank
